*Your generosity helped
Leigha to feel new strength
through her wish!*

Leigha Glides with Dolphins

Leigha is a bubbly, high-spirited eleven-year-old girl. When she's not spending time with her family or riding her bike you'll find her doing cartwheels on the cheer mat. After being diagnosed with metastatic melanoma, long days of treatment left Leigha longing for a new adventure. Leigha wished to discover the wonders of The Atlantis Resort!

The anticipation of the warm sun and smells of the ocean kept Leigha hopeful in the days leading up to the excursion. As she entered the Bahamian resort she was captivated by the breathtaking waterslides, incredible views and thousands of sea creatures. Her days were filled with sand, sun and ultimate relaxation as she escaped her constant worries back home. Leigha received an intense feeling of courage and happiness as she glided across the water traveling dolphin back. As she placed her hand on the creature's soft fin, her bright smile reflected off the water with a sense of peace and strength, which has continued upon arriving back home.

This enriching escapade has provided Leigha and her family with memories that will help them continue to stay positive about her future. As Leigha vividly recalls the warm and calming dolphin touch she is reminded daily to be brave. Thank you for your generosity in helping to make Leigha's wish come true!
